Staffify GO Enterprise Vendor & Staffing Management

All Modules & System Capabilities Guide

Comprehensive Reference Manual: Detailed Functions, User Actions, Business Logic, and UI Walkthroughs for All 15 Platform Modules in Simple, Clear English.

This manual covers every module of the StaffifyGo platform. It explains the operational purpose of each screen, what administrators and agency managers can do, what happens behind the scenes, and how all modules interconnect to deliver end-to-end staffing compliance.

- **Module 1: Dashboard & Overview**
- **Module 2: Hiring Demands & AI Matching**
- **Module 3: Workers Directory & KYC**
- **Module 4: Work Assignments & Deployments**
- **Module 5: Shift Schedules & Squad Rosters**
- **Module 6: Attendance & Overtime Muster Roll**
- **Module 7: Worker Advances & Loans**
- **Module 8: Statutory Compliance (Form B & D)**
- **Module 9: Monthly Salaries & Payslips**
- **Module 10: Client Contracts, POs & Rate Cards**
- **Module 11: Invoicing & Collections (18% GST)**
- **Module 12: Clients & Work Sites Directory**
- **Module 13: Staffing Agencies Directory**
- **Module 14: Worker Exits & Final Settlements**
- **Module 15: Autonomous AI Risk Watchdog**
- **SOP Matrix: Full Lifecycle Integration**

StaffifyGo Enterprise Platform
Complete Modules Manual | Standard Operating Procedure (SOP)
Target System: **Staffify-Vendor-Portal** • Branch: **main**

Author: **Enterprise HR & Operations Team**
Release Date: November 2026
Classification: **Confidential / System Reference Manual**

Module 1: Executive Dashboard & Operations Monitoring

Route: `/dashboard` (or `/`)

The **Executive Dashboard** provides real-time situational awareness across all field operations, client accounts, workforce deployments, and cash flow. It pulls data dynamically from all underlying modules.

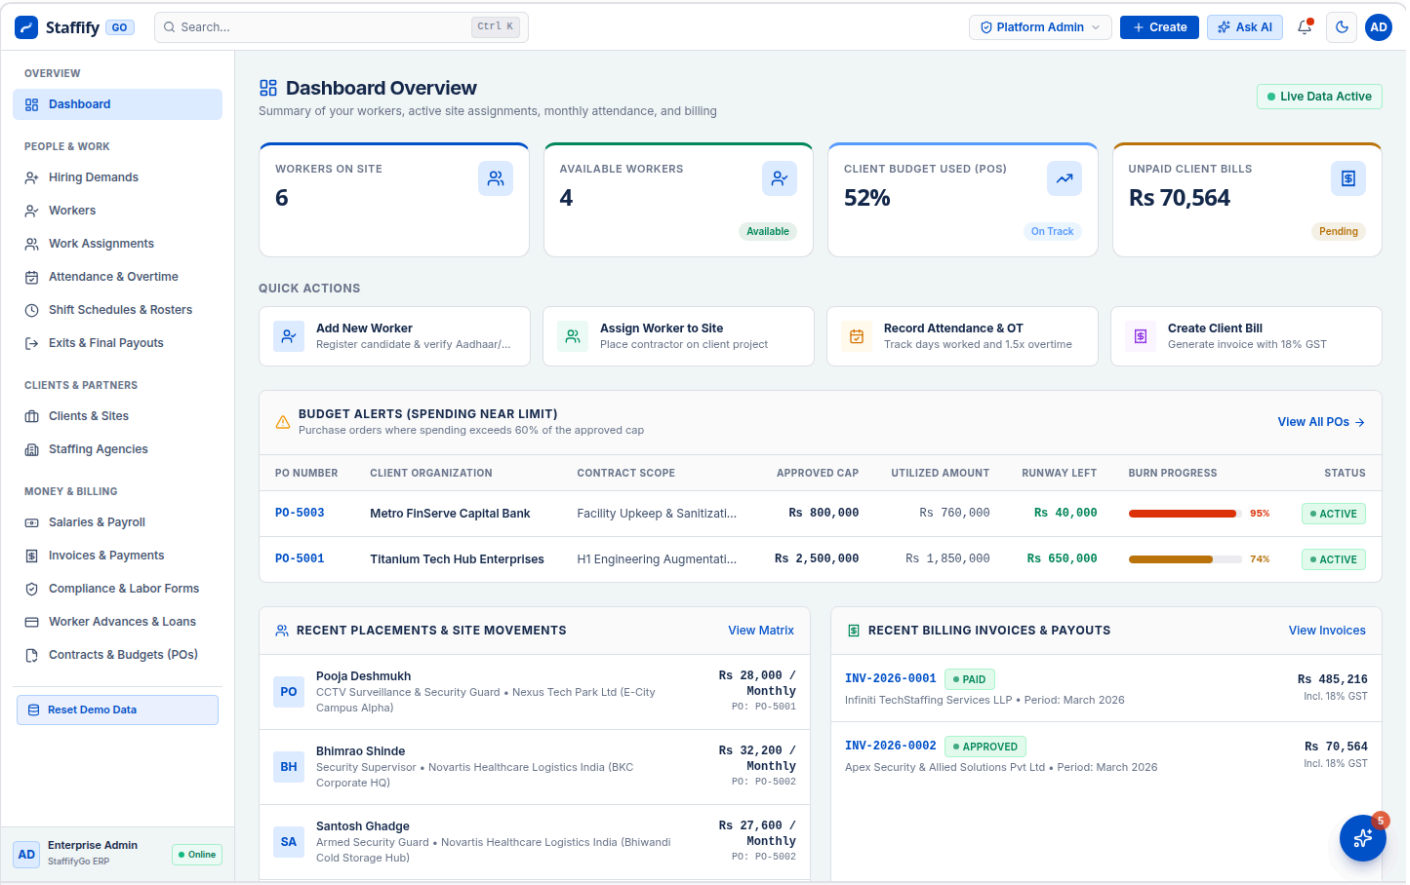

Figure 1.1 — Executive Dashboard & Live Operations Overview Route: /dashboard

What the Admin Can Do Here

- **Monitor Workforce Deployment**: View immediate headcount counts of contractors working on site vs. sitting on the bench.
- **Track Client Budget Utilization**: Real-time progress bars highlight Purchase Orders (POs) reaching 60% (warning) or 80% (critical burn).
- **Review Receivables & Cash Flow**: Tracks outstanding client tax invoices to ensure salary funds are collected in advance.
- **1-Click Quick Actions**: Direct shortcuts to *Add New Worker*, *Assign Worker to Site*, *Record Attendance & OT*, and *Create Client Bill*.

Module 2: Client Manpower Requisitions & Demand Management

Route: `/requisitions`

When client organizations require additional labor, site supervisors or account managers log headcount demands here. The system monitors quota fulfillment and uses AI to recommend candidates instantly.

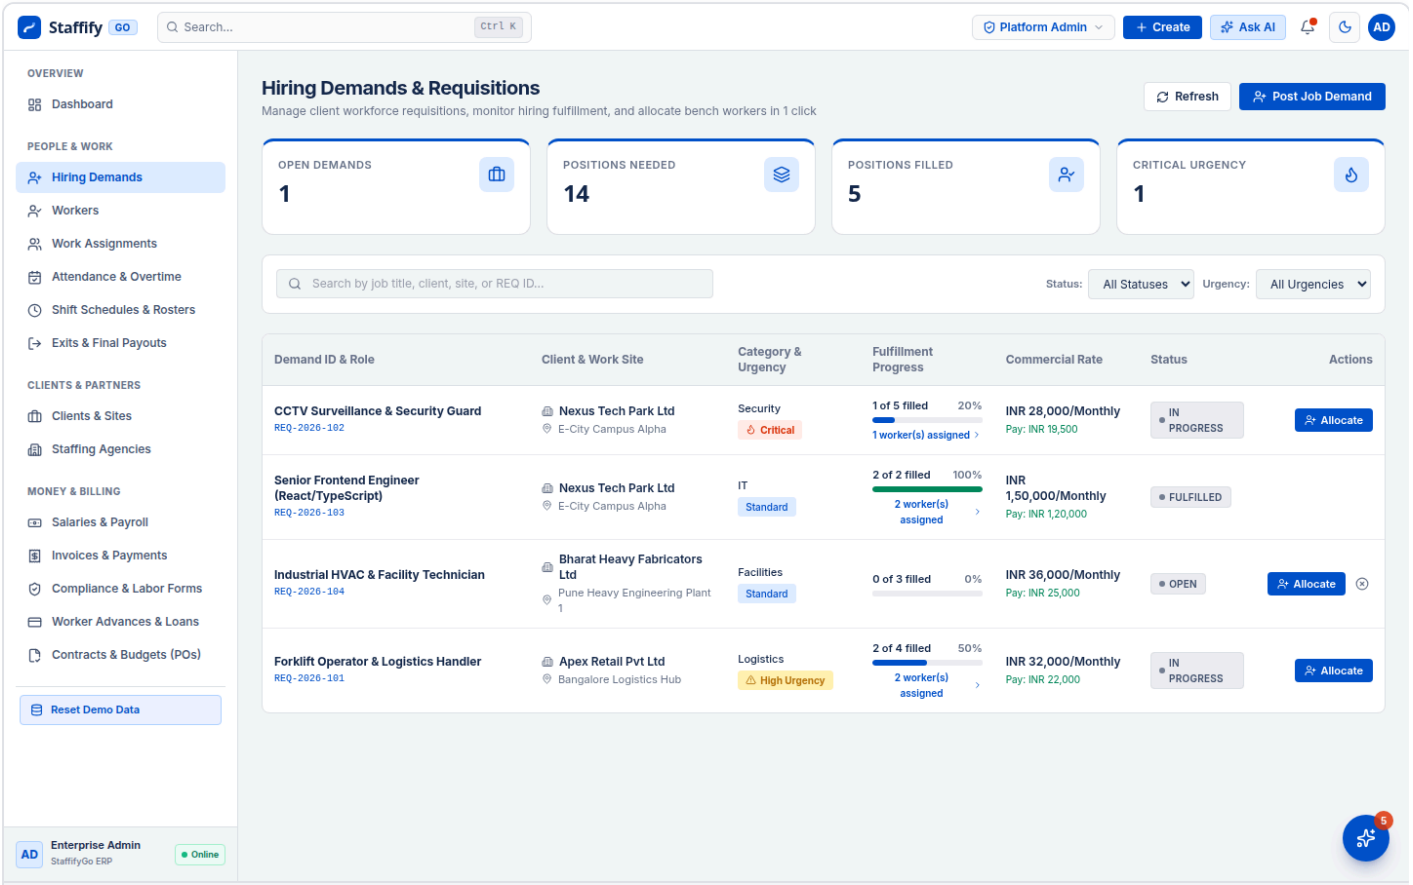

Figure 2.1 — Client Workforce Demands & Fulfillment Tracking Route: /requisitions

Key Capabilities & Workflow

1. **Post Job Demand**: Specify Client, Site Location, Trade Category (e.g., Security, IT, Facilities), Positions Needed, Urgency Level (CRITICAL , HIGH , STANDARD), and Agreed Commercial Bill Rate.
2. **Fulfillment Progress Bars**: Displays live progress (e.g. *1 / 5 Filled - 4 remaining*).
3. **1-Click AI Smart Match**: Click *Allocate*, then click *AI Match Candidates*. The algorithm calculates compatibility scores based on Trade (35%), Skills (30%), Experience (15%), and KYC (20%), auto-selecting the best workers.

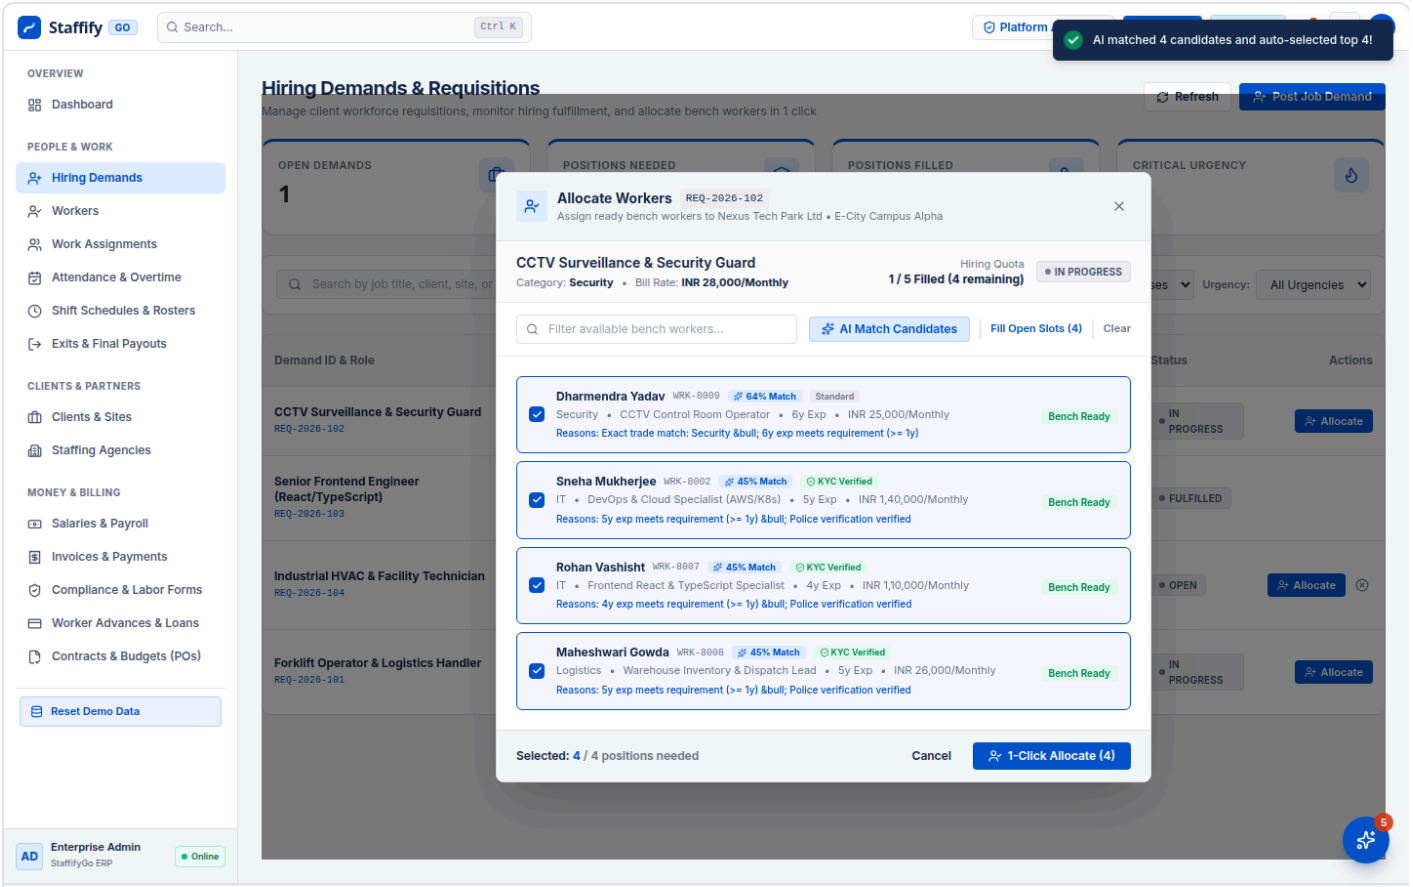

Figure 2.2 — AI Candidate Compatibility Scoring & Instant Bench Allocation **Allocation Modal**

Module 3: Workers Directory & Statutory KYC Verification

Route: `/workers`

The **Workers Directory** manages candidate onboarding, government identity records (Aadhaar, PAN), statutory accounts (EPF UAN, ESIC IP), and physical gate access security cards.

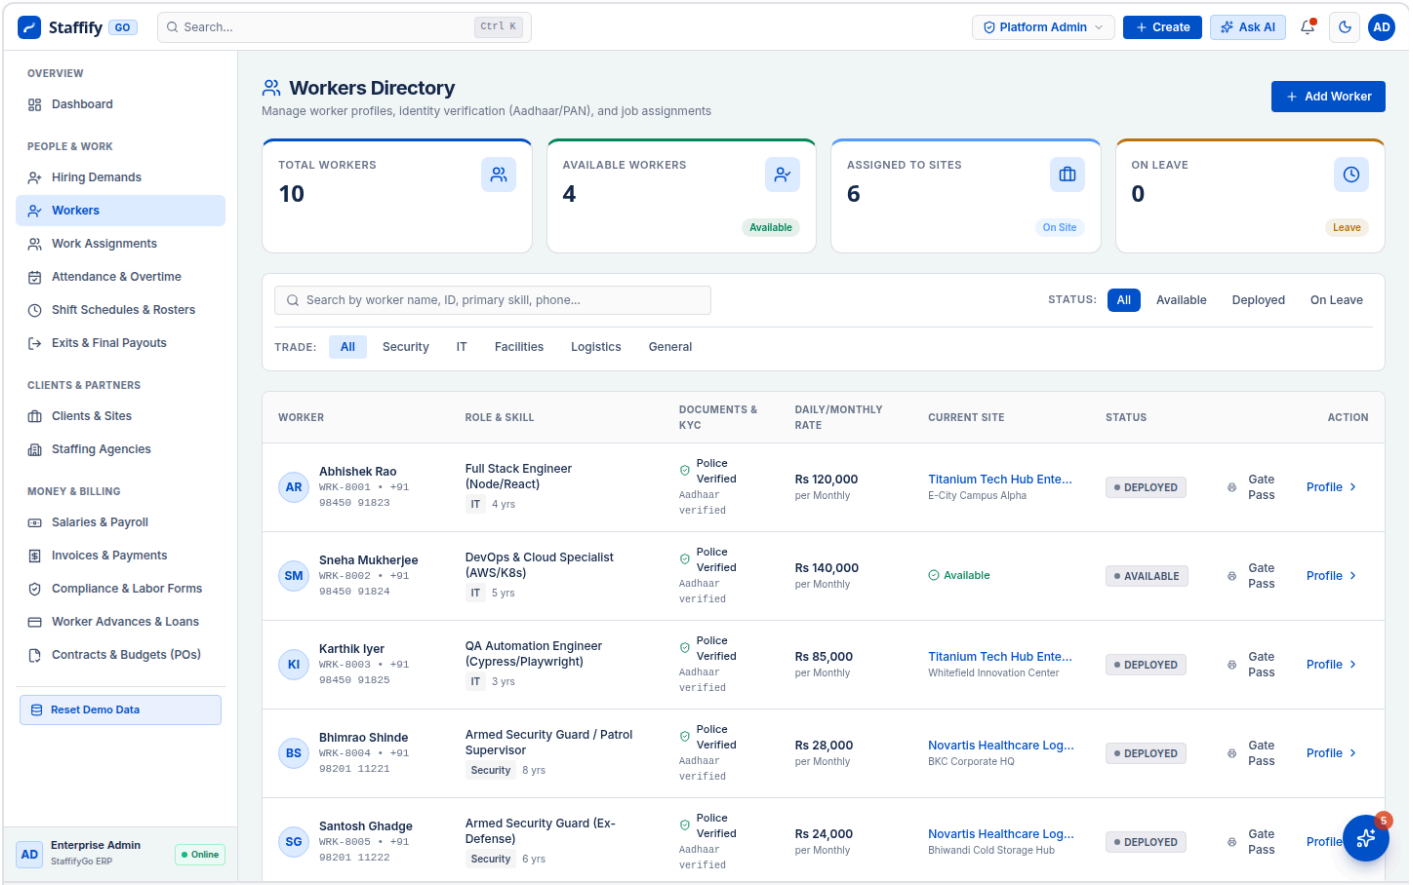

Figure 3.1 — Master Talent Bench with Live KYC Status **Route: /workers**

Administrative Actions Available

- **Candidate Onboarding Modal**: Register Full Name, Trade, Mobile, Base Pay Rate, 12-digit Aadhaar, PAN, PF UAN, ESIC number, Police Clearance status, and Bank NEFT details.
- **CR80 Laminated Gate Pass / ID Card**: Generate standard printable PVC badges with photo, site authorization, emergency blood group, QR verification code, and clearance stamps.
- **360° Profile Dossier**: Slide-over drawer detailing past site placements, wage slips, and documents.

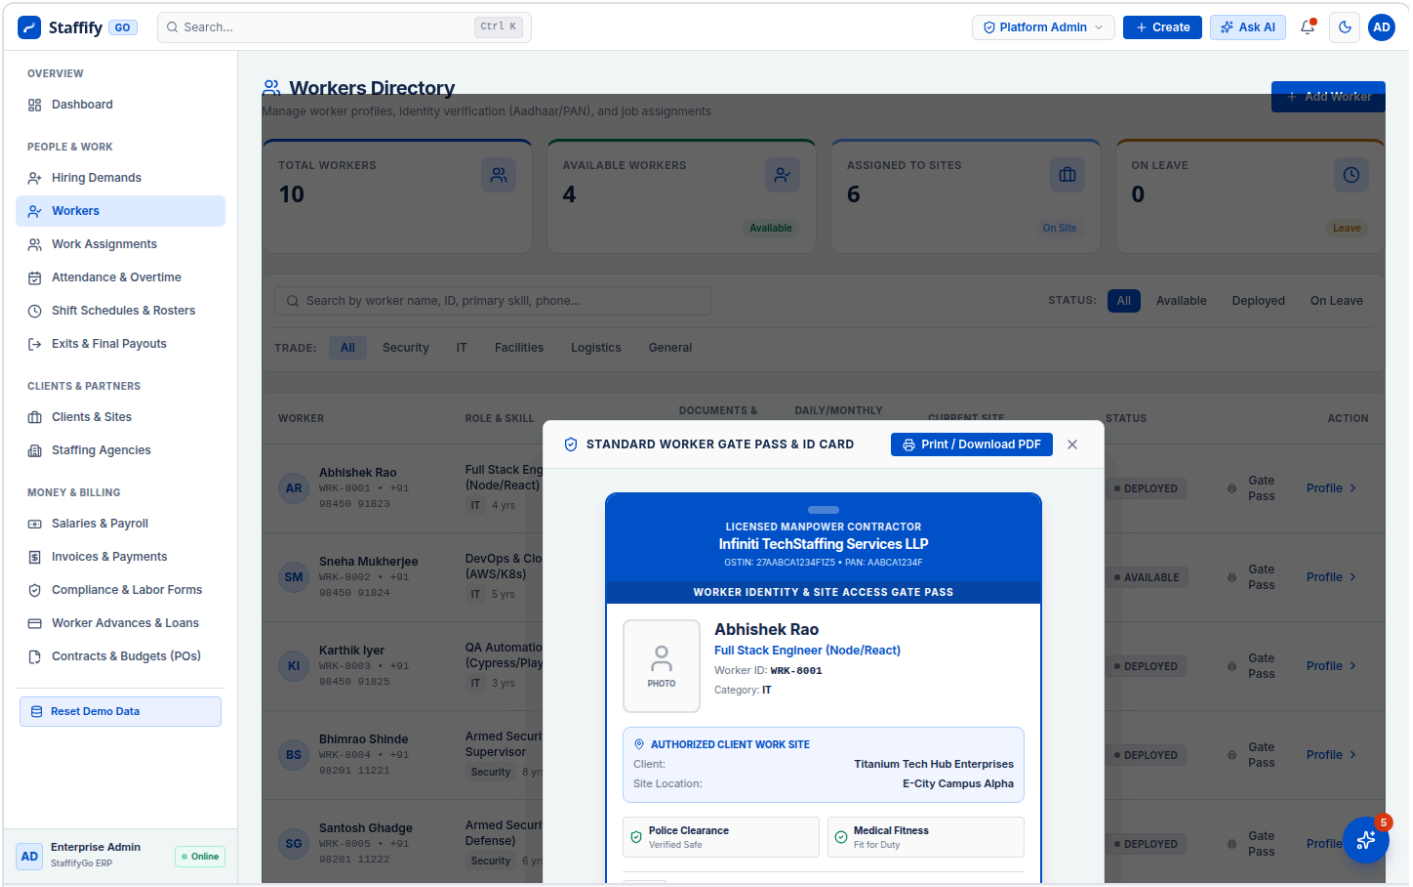

Figure 3.2 — Standard Laminated Gate Pass & Worker ID (CR80 Standard) **Print Modal View**

Module 4: Work Assignments & Site Deployments

Route: `/deployments`

Tracks all active contractor deployments across customer sites. Placements are governed by agreed commercial contracts and purchase orders to prevent unbilled workforce placement.

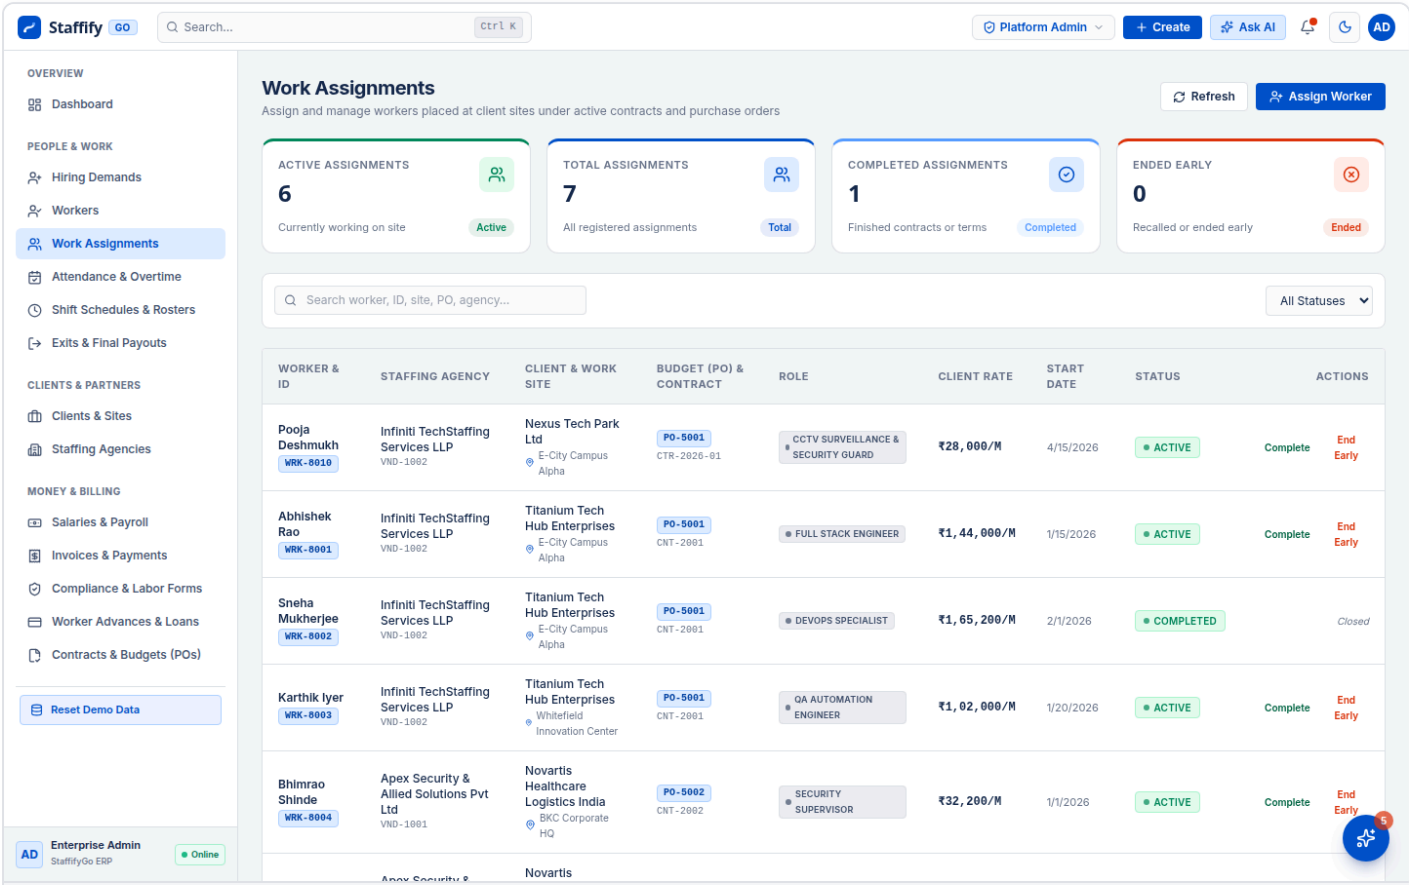

Figure 4.1 — Active Work Assignments, Client Sites & Rate Margins Route: /deployments

Core Operational Information Tracked

FIELD	WHAT IT SHOWS	BUSINESS & COMPLIANCE PURPOSE
Worker & Trade	Name, ID (e.g. WRK-8001), Trade badge	Ensures qualified personnel match job specifications.
Client Site	Facility, Campus, Branch location	Defines legal place of work under state labor licenses.
Budget / PO Link	Client Purchase Order reference	Guarantees customer authorization and billing validity.
Commercial Rates	Bill Rate (to Client) vs. Pay Rate (to Worker)	Tracks gross margin and operational profitability.
Tour Status	ACTIVE, COMPLETED, ENDED EARLY	Monitors engagement lifecycle and triggers exit settlement.

Automated WhatsApp Worker Briefing & Digital Gate Pass: For every active assignment row, administrators can click **Dispatch WA**. StaffifyGo automatically generates a pre-formatted WhatsApp deployment briefing sent directly to the worker's mobile phone containing Client Site Name, Shift Timings (e.g. 09:00 AM - 06:00 PM), Reporting Site Supervisor, and a direct link to their Digital Gate Pass (CR80 QR ID card). The dispatch is automatically recorded in the system notification audit log.

Module 5: Shift Schedules & Squad Rosters

Route: `/shifts`

Essential for continuous 24/7 client operations (such as hospital logistics, IT infrastructure security, and manufacturing plants). This module groups workers into squads and automates weekly rotation schedules.

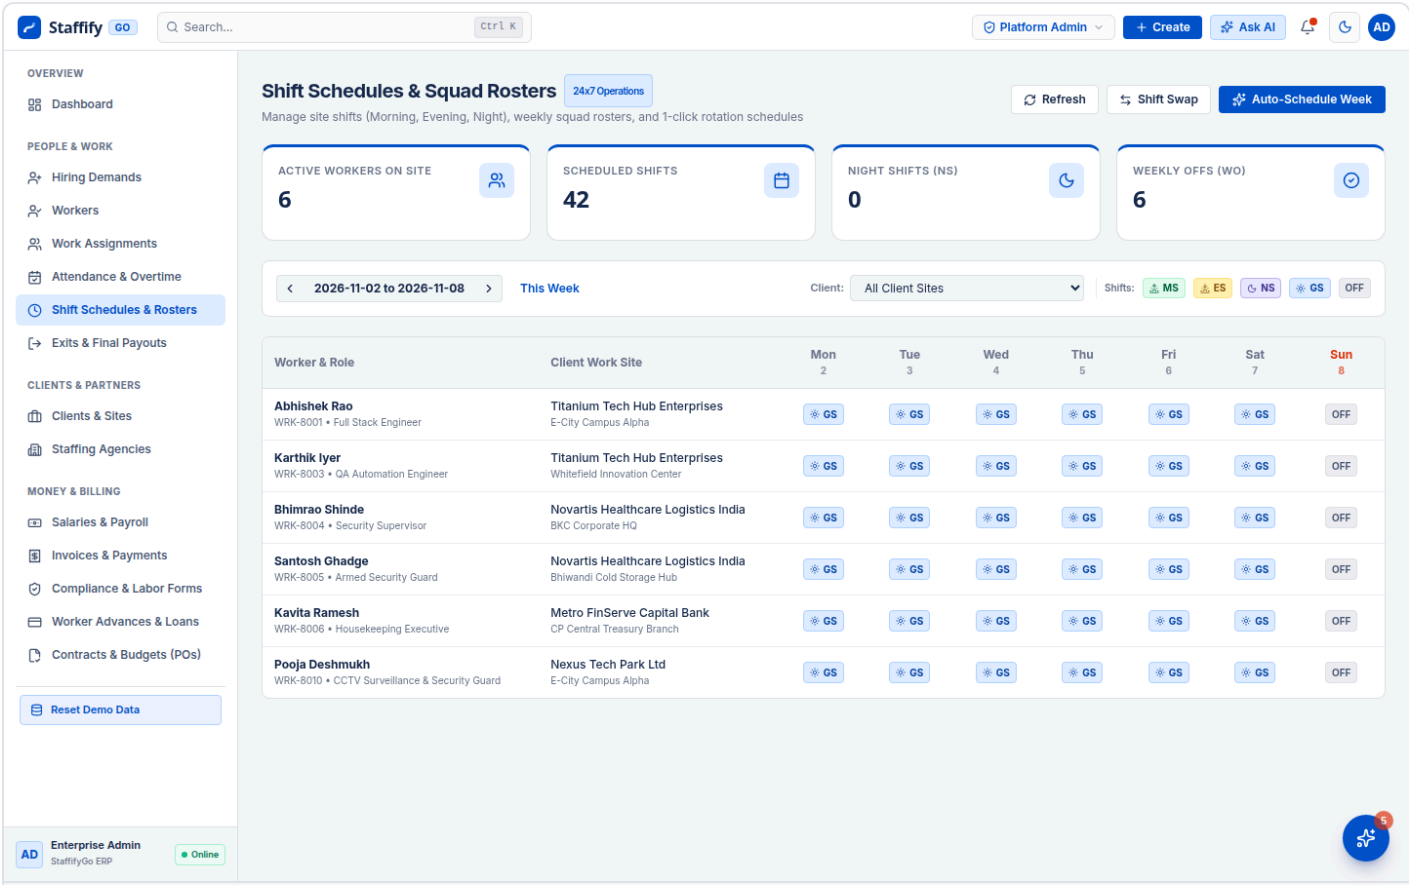

Figure 5.1 — Weekly Squad Shift Rostering Matrix **Route: /shifts**

Shift Structure & Regulations

- **Morning Shift (A)**: `06:00 AM – 02:00 PM` (Early production and facility opening).
- **General Shift (G)**: `09:00 AM – 06:00 PM` (Standard enterprise working hours).
- **Night Shift (C)**: `10:00 PM – 06:00 AM` (Overnight security, surveillance, and upkeep).
- **Weekly Offs (WO)**: Enforces statutory 1-day rest per 6 consecutive working days under the Factories Act.

Module 6: Daily Attendance & Overtime Muster Roll

Route: `/muster-roll` (or `/attendance`)

Captures daily site attendance sheets. The engine calculates normal working days, late marks, leaves, and overtime hours compensated at the statutory **1.5x** multiplier.

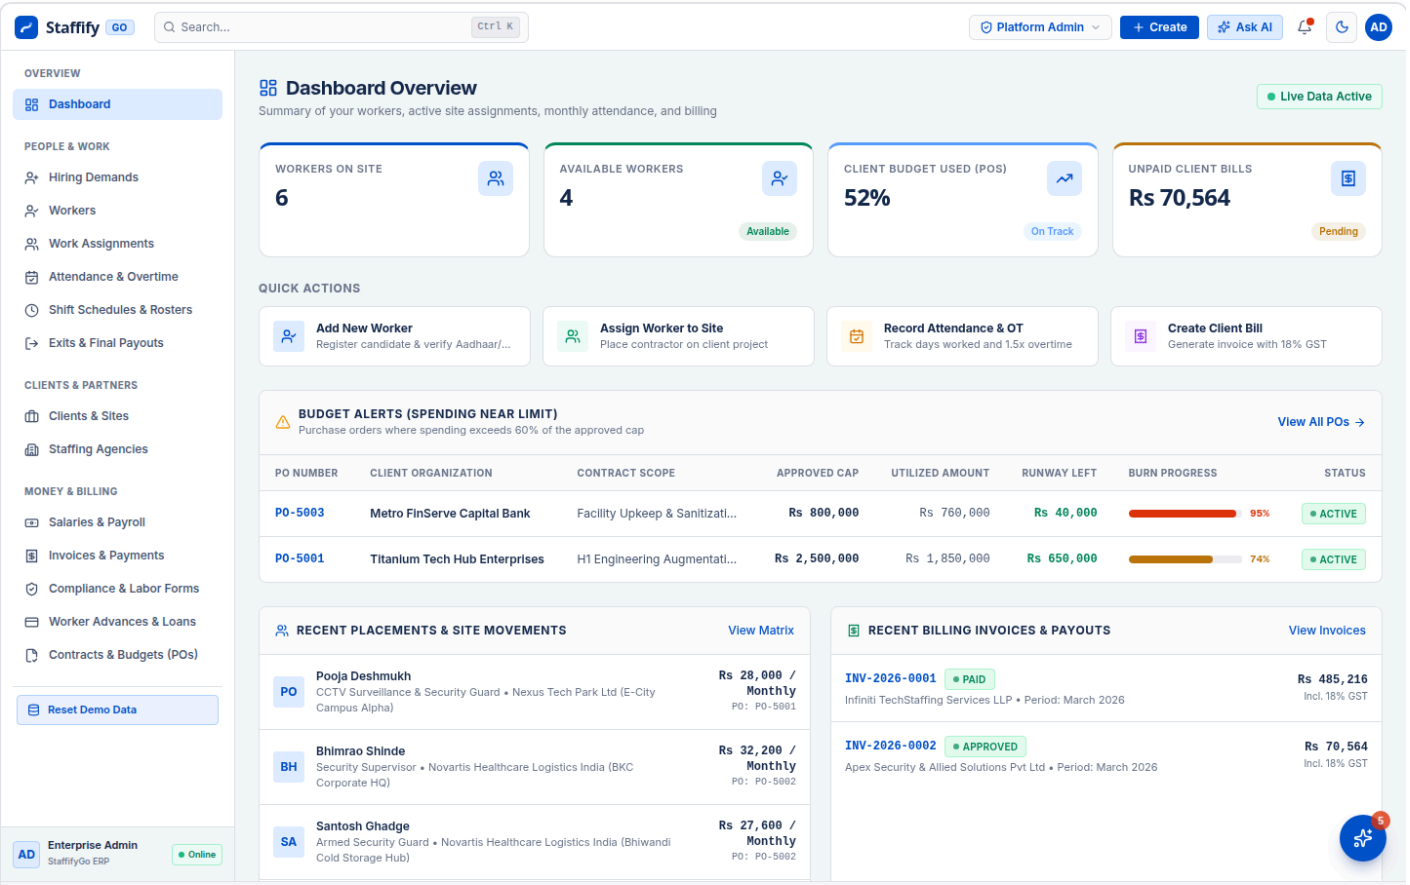

Figure 6.1 — Site Attendance Sheets, Overtime Tracking & Sheet Lock Route: /muster-roll

The Attendance Approval Workflow

1. Site supervisors record daily punches and overtime logs for each deployed worker.
2. The administrator filters by **Client Site** and **Month** to review attendance totals.
3. The system flags workers with excessive overtime (≥ 15 hours/month) to prevent fatigue violations.
4. Click **Approve Attendance**: Locks the attendance sheet, preventing unauthorized edits and feeding verified hours directly into the Payroll Engine.

Module 7: Worker Advances & Salary Loans

Route: `/loans`

Contractors frequently require emergency financial advances. This module tracks principal disbursals, monthly repayment amortization schedules, and automatic payroll recovery.

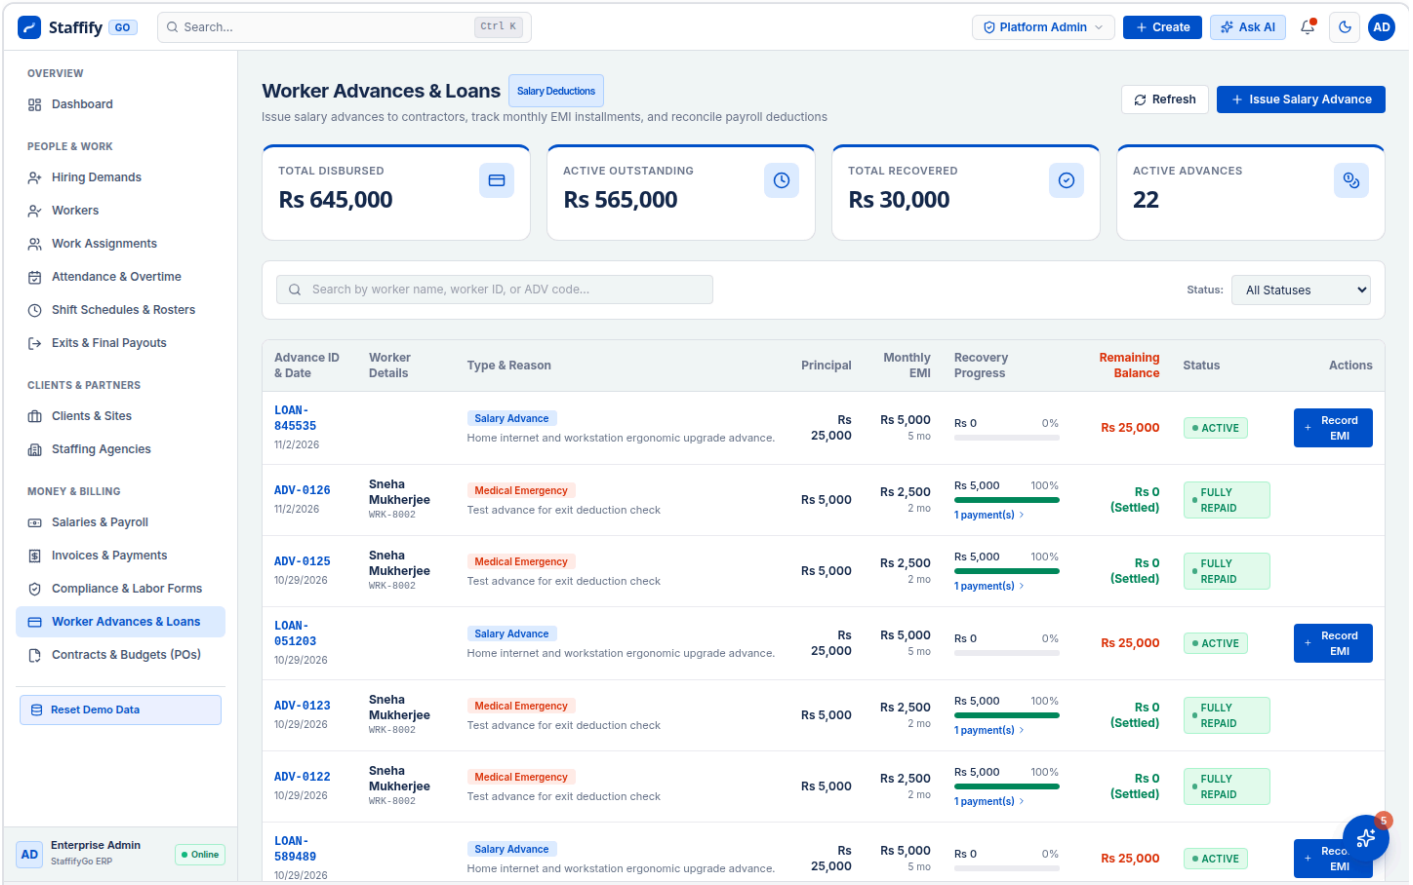

Figure 7.1 — Advance Disbursal, Monthly EMI Amortization & Balances **Route: /loans**

Automated Safeguards Against Financial Loss

- **Automated Payroll EMI Offset**: When running monthly salaries, scheduled installments are automatically deducted from the worker's payslip.
- **FnF Exit Protection**: If a worker leaves before completing repayment, any outstanding balance is automatically deducted from their Full & Final settlement voucher.
- **Balance Ledger**: Real-time tracking of *Total Disbursed*, *Total Recovered*, and *Active Outstanding*.

Module 8: Statutory Compliance & Labor Registers

Route: `/compliance`

Generates official statutory registers conforming to the *Contract Labour (Regulation & Abolition) Central Rules, 1971* and social security laws. Includes 1-click government return file exporters for EPFO and ESIC portals.

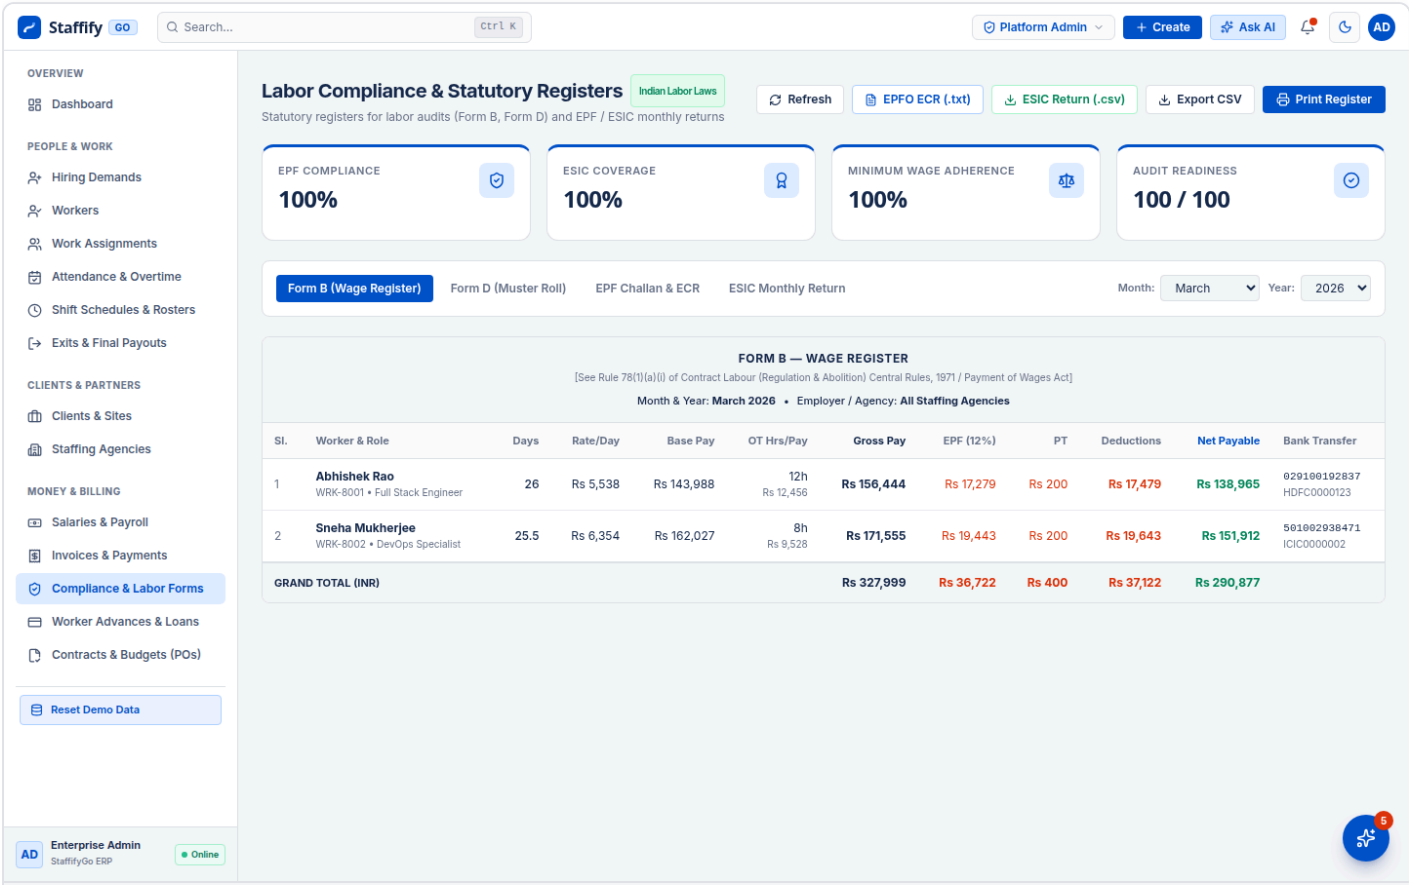

Figure 8.1 — Labor Inspection Readiness Command Center & Government Return Exporters Route: /compliance

1-Click Government Statutory Return Exporters (EPFO ECR 2.0 & ESIC)

Eliminates manual portal data compilation. Generates pre-formatted upload files conforming strictly to official EPFO and ESIC government portal specifications:

STATUTORY FILE	TARGET PORTAL	FORMAT & DELIMITER	STATUTORY CALCULATION RULES
EPFO ECR 2.0 Return	EPFO Unified Employer Portal	Text file (`.txt`) Delimiter: #~#	Caps EPF/EPS wages at statutory Rs 15,000 ceiling. Calculates 12% Employee EPF, 8.33% Employer EPS (capped at Rs 1,250), and 3.67% Employer EPF with member UANs.
ESIC Monthly Return	ESIC Insurance Portal	Spreadsheet (`.csv`) Standard headers	Filters eligible workers (gross monthly wages ≤ Rs 21,000) with 10-digit IP numbers, working days, and 0.75% employee contribution.

Official Labor Registers Generated by StaffifyGo

REGISTER FORM	STATUTE & RULE	INFORMATION MAINTAINED
Form B — Wage Register	CL(R&A) Rule 78(1)(a)(i)	Gross earnings, basic wages, OT hours, EPF (12%), ESIC (0.75%), PT, net pay.
Form D — Muster Roll	CL(R&A) Rule 78(1)(a)(ii)	Daily punch records, shift symbols, weekly offs, absences.
EPF Return / ECR	Employees' Provident Funds Act	12% Employee share + 12% Employer share with Universal Account Numbers.
ESIC Return	ESI Act, 1948	0.75% Employee share + 3.25% Employer share for wages ≤ Rs 21,000/mo.

Module 9: Salaries, Monthly Payroll & Form XIX Payslips

Route: `/payroll`

Converts approved attendance muster rolls into finalized disbursement batches. Automatically computes gross wages, overtime pay, statutory taxes, loan EMI deductions, net take-home bank transfers, and 1-click Bank CMS payout files.

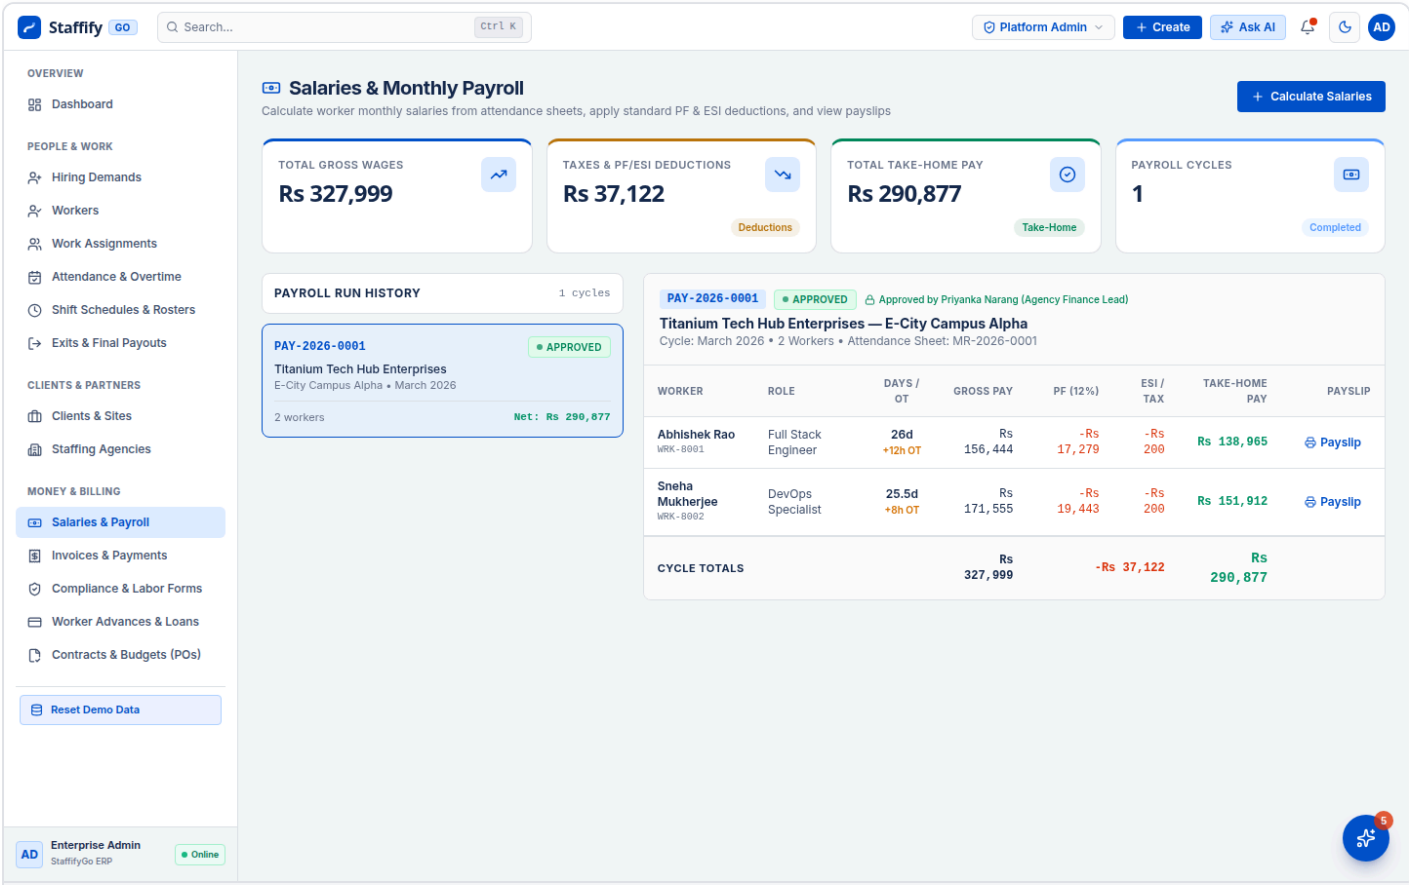

Figure 9.1 — Monthly Salary Processing & Disbursement Batches Route: /payroll

Bank CMS Bulk Payout File Export (HDFC / ICICI / SBI 1-Click Payouts)

Eliminates tedious single-worker manual bank transfers by generating bank-compliant Corporate Management System (CMS) bulk payout files with a single click.

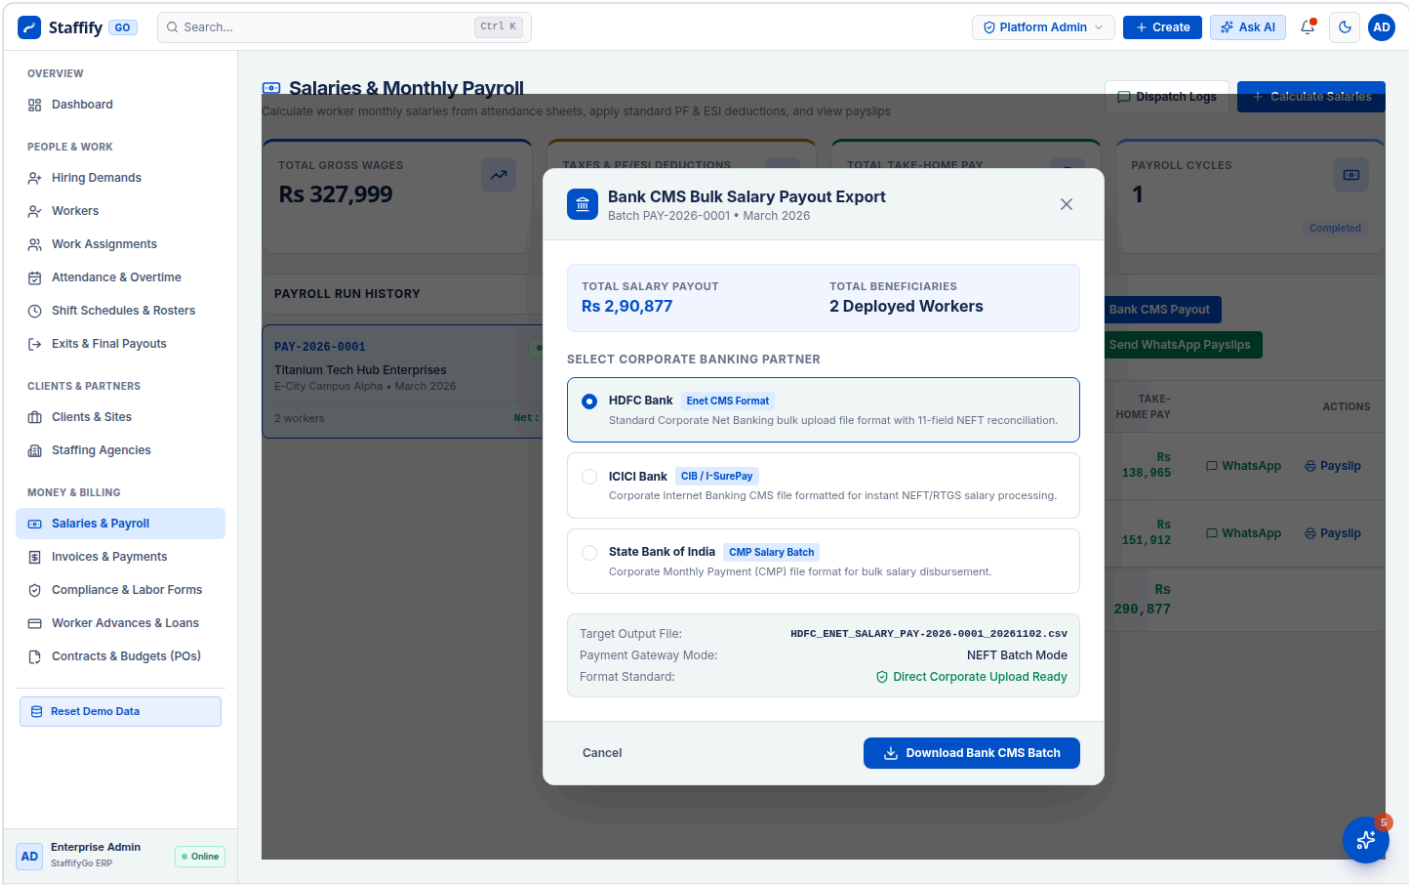

Figure 9.2 — Bank CMS Bulk Salary Disbursement File Generator Payroll > Bank CMS Payout Modal

BANK CMS STANDARD	FILE SPECIFICATION	BATCH FORMAT & REQUIRED COLUMNS
HDFC Corporate Enet	Batch CSV (`HDFC_ENET_SALARY_*.csv`)	Beneficiary Code, Beneficiary Account Number, Amount, Worker Name, IFSC Code, Corporate Debit Account, Customer Reference Number.
ICICI CMS / CIB	I-SurePay CSV (`ICICI_CMS_SALARY_*.csv`)	Payment Product Code (PA), Payment Mode (NEFT), Corporate Debit Account, Disbursement Amount, Beneficiary Account, Worker Name, IFSC.
SBI CMP Corporate	Corporate Bulk CSV (`SBI_CMP_SALARY_*.csv`)	Corporate Debit Account Number, Value Date, Disbursement Amount, Beneficiary Name, Beneficiary Account, IFSC, Salary Remarks.

WhatsApp Automated Payslip Dispatches & Delivery Audit Logs

Contract workers frequently lack email or computer access. StaffifyGo delivers instant digital Form XIX payslip links directly to worker WhatsApp numbers upon payroll approval.

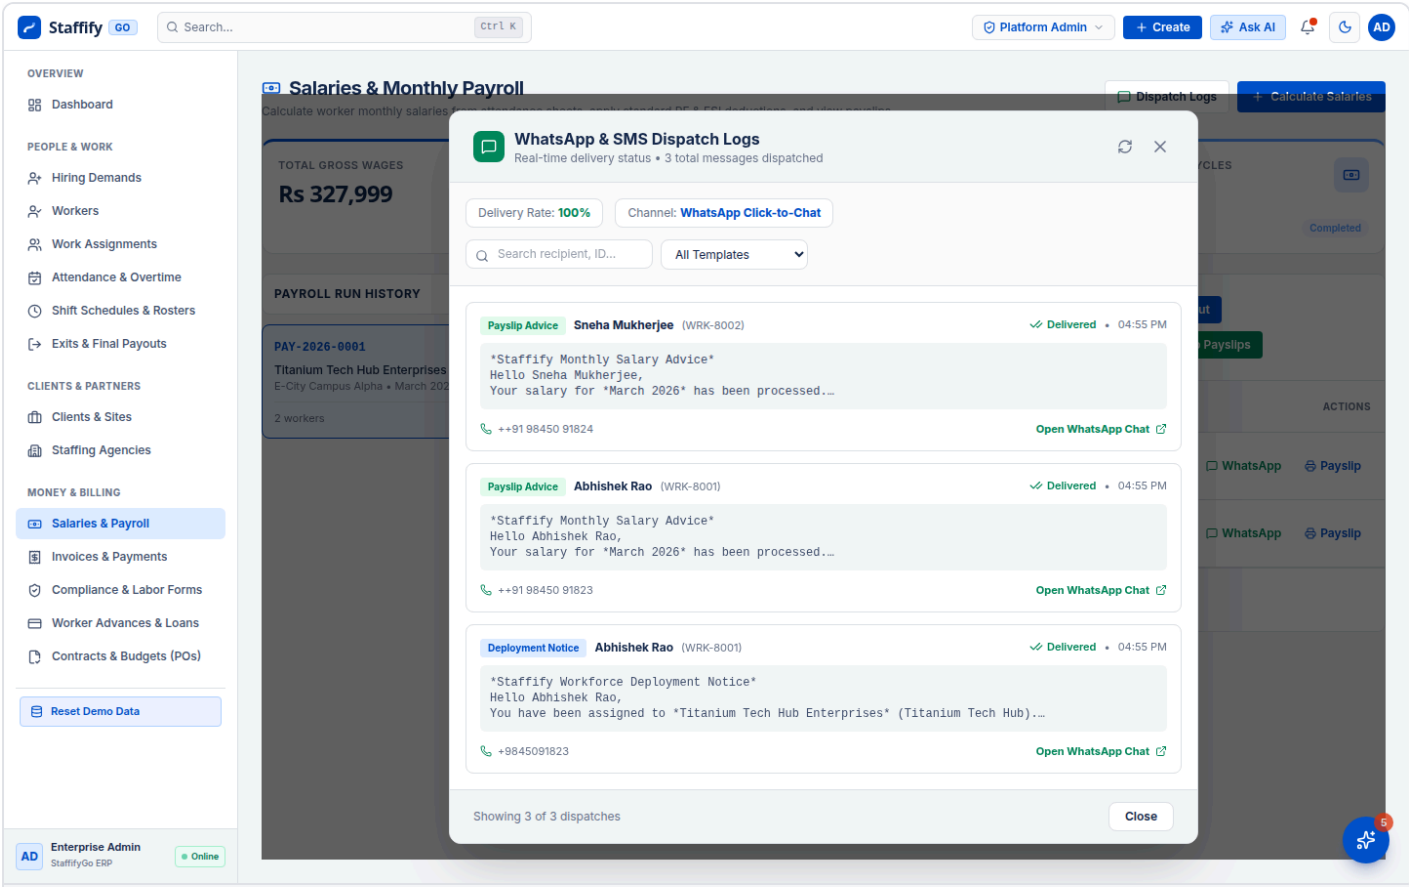

Figure 9.3 — Real-Time Notification & WhatsApp Dispatch Audit Log **Payroll > Dispatch Logs Modal**

Notification Capabilities:

- **1-Click Bulk Payslip Dispatch:** Click **Send WhatsApp Payslips** to formulate salary advice messages for all approved workers in the batch with net pay figures and digital payslip links.
- **Individual Worker Dispatch:** Click the WhatsApp icon next to any worker row to open a direct pre-filled chat advice with their monthly earnings breakdown.
- **Delivery Audit Trail:** The **Dispatch Logs** modal records recipient phone numbers, message templates, timestamps, dispatch statuses, and provides direct fallback WhatsApp web links.

Official Form XIX Contractor Salary Payslip

Click **Payslip** in any employee's payroll row to open their official salary slip conforming to **Rule 78(1)(b)**.

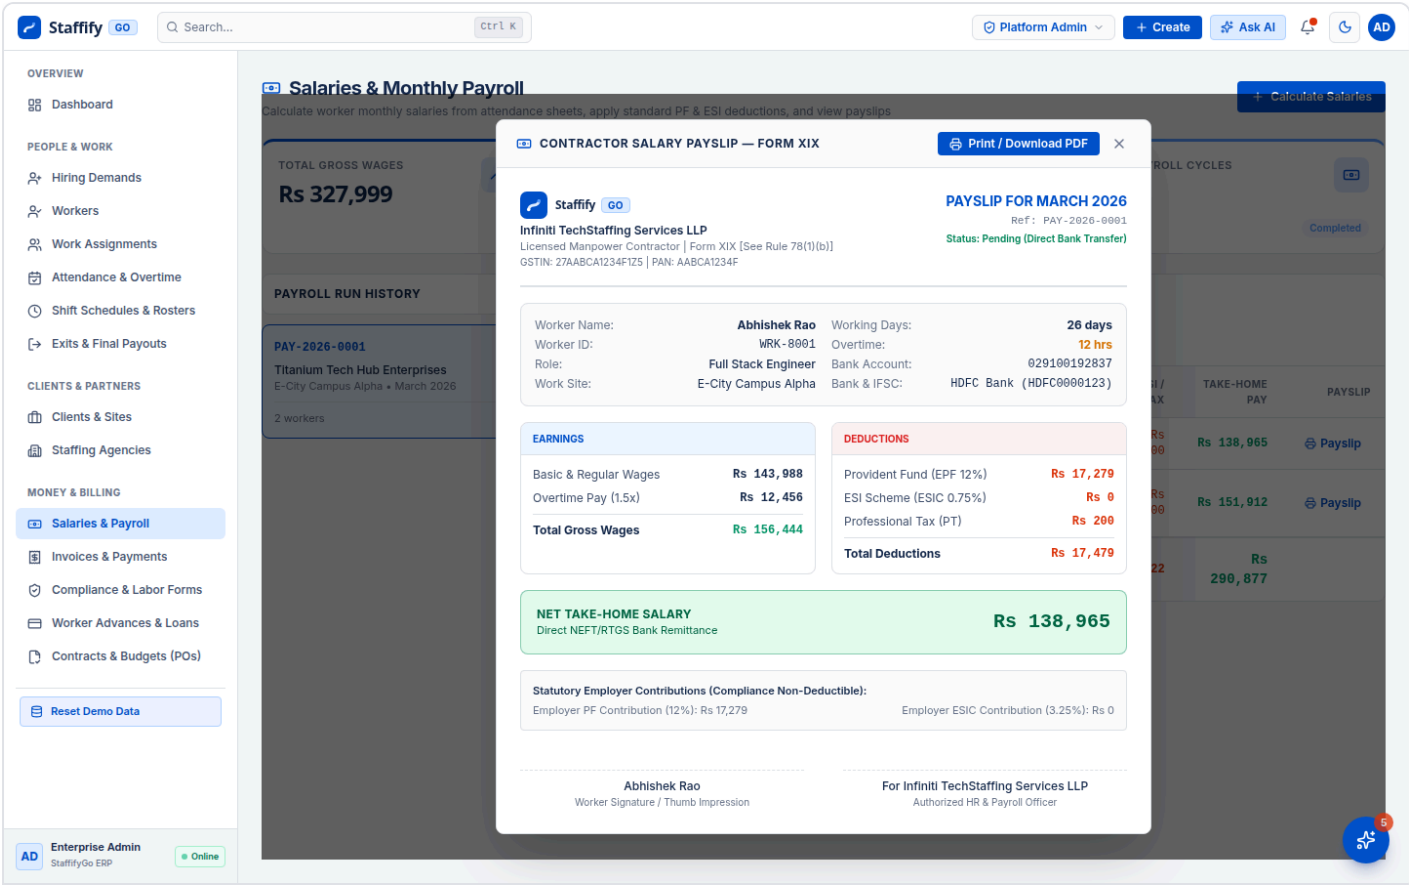

Figure 9.4 — Form XIX Contractor Salary Slip with Dual Signatures (A4 Print / PDF) **Payslip Modal**

Included on Payslip: Contractor GSTIN/PAN and License Number, Worker UAN/ESIC numbers, working days (26 days), OT hours (12 hrs), gross wages, itemized deductions (EPF, ESIC, Professional Tax, Loan Recoveries), net take-home pay, employer statutory contributions, and dual signature blocks for the Worker Thumb Impression and Authorized HR Signatory.

Module 10: Client Contracts, Purchase Orders & Rate Cards

Route: `/commercials`

Manages commercial agreements, contracted rate cards, and approved client Purchase Order (PO) budget burn rates. Ensures that staffing deployments always align with client budgets.

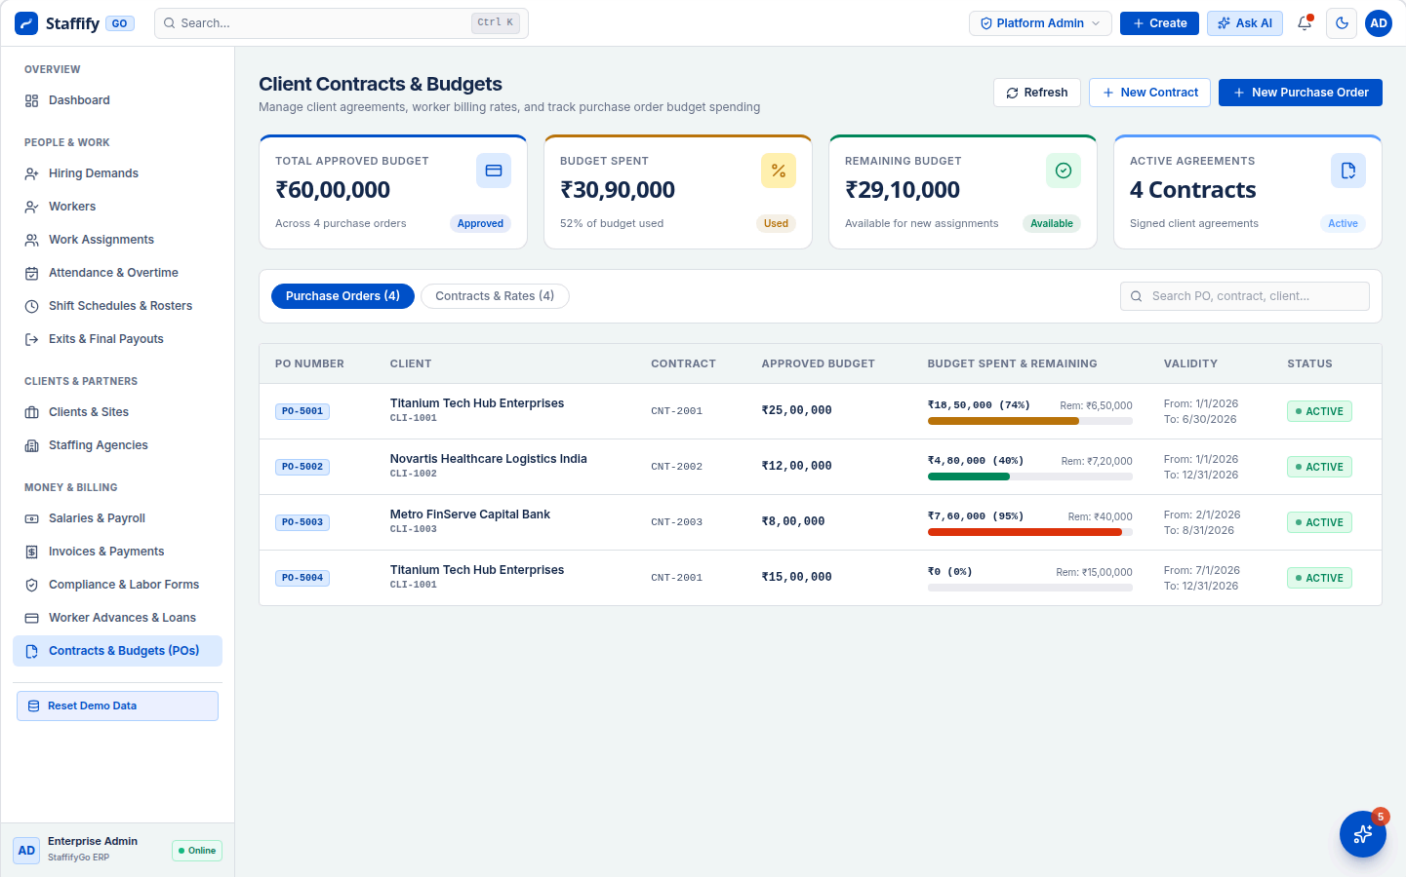

Figure 10.1 — Purchase Order Budgets, Burn Rates & Commercial Rate Cards Route: /commercials

Key Capabilities

- **PO Budget Burn Tracking**: Monitors total approved budget cap, amount utilized, and remaining runway.
- **Autonomous Budget Alerts**: Highlights purchase orders exceeding 60% (warning) and 80% (critical limit).
- **Commercial Rate Cards**: Establishes contracted billing rates by trade role, ensuring consistent billing.

Module 11: Client Invoices, Tax Billing & Collections

Route: `/vendor-invoices`

Generates official tax invoices from approved attendance and billing rates. Conforms to Section 31 of the CGST Act with standard SAC Code 998519 (Support services of personnel placement) and 18% GST (9% CGST + 9% SGST).

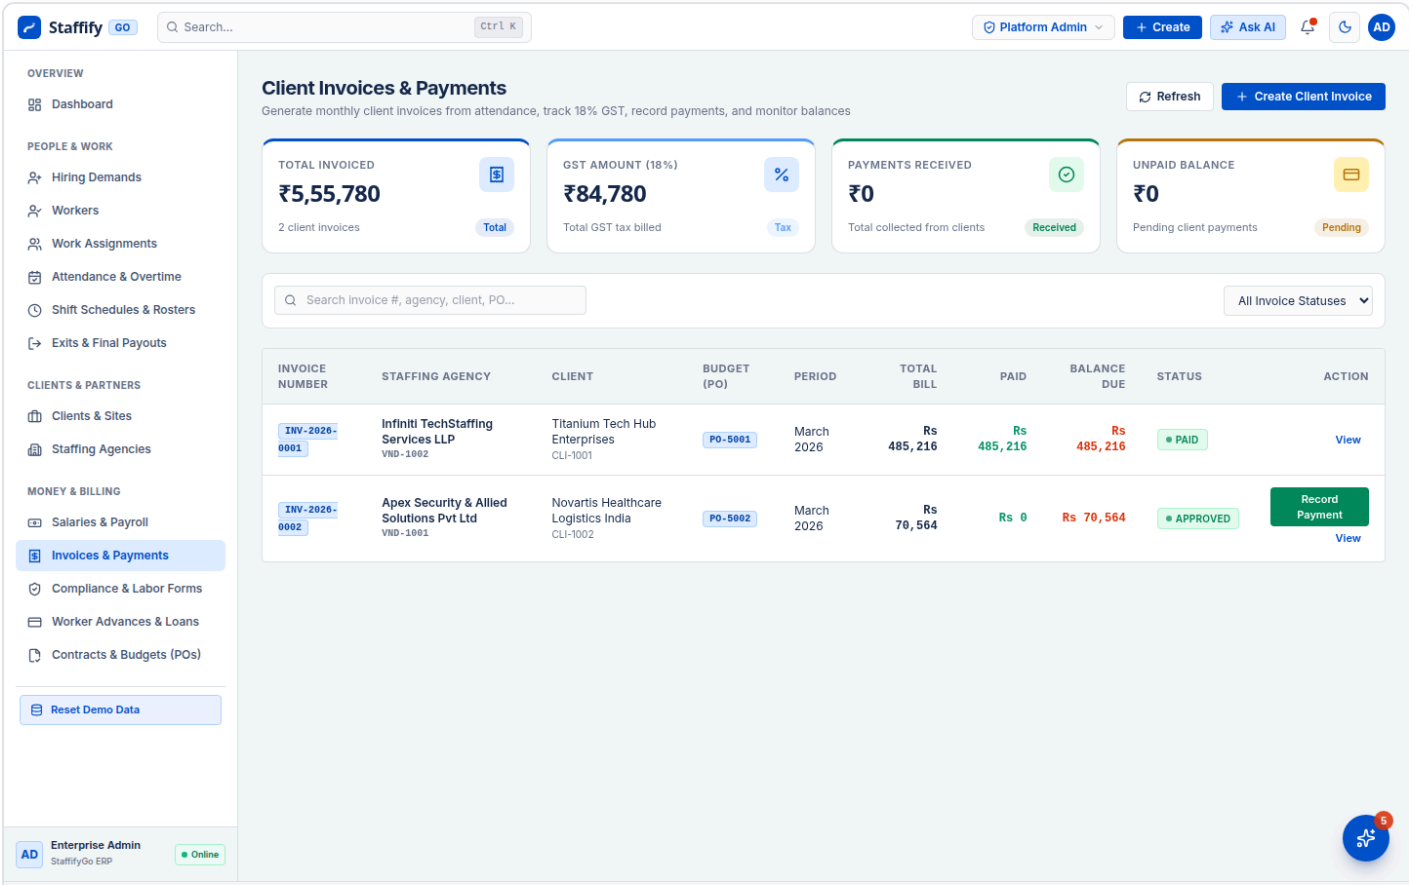

Figure 11.1 — Client Invoices, Payment Tracking & Outstanding Balances Route: /vendor-invoices

Section 31 CGST Tax Invoice Modal

Click **View** on any invoice to display the official tax invoice ready for download or printing.

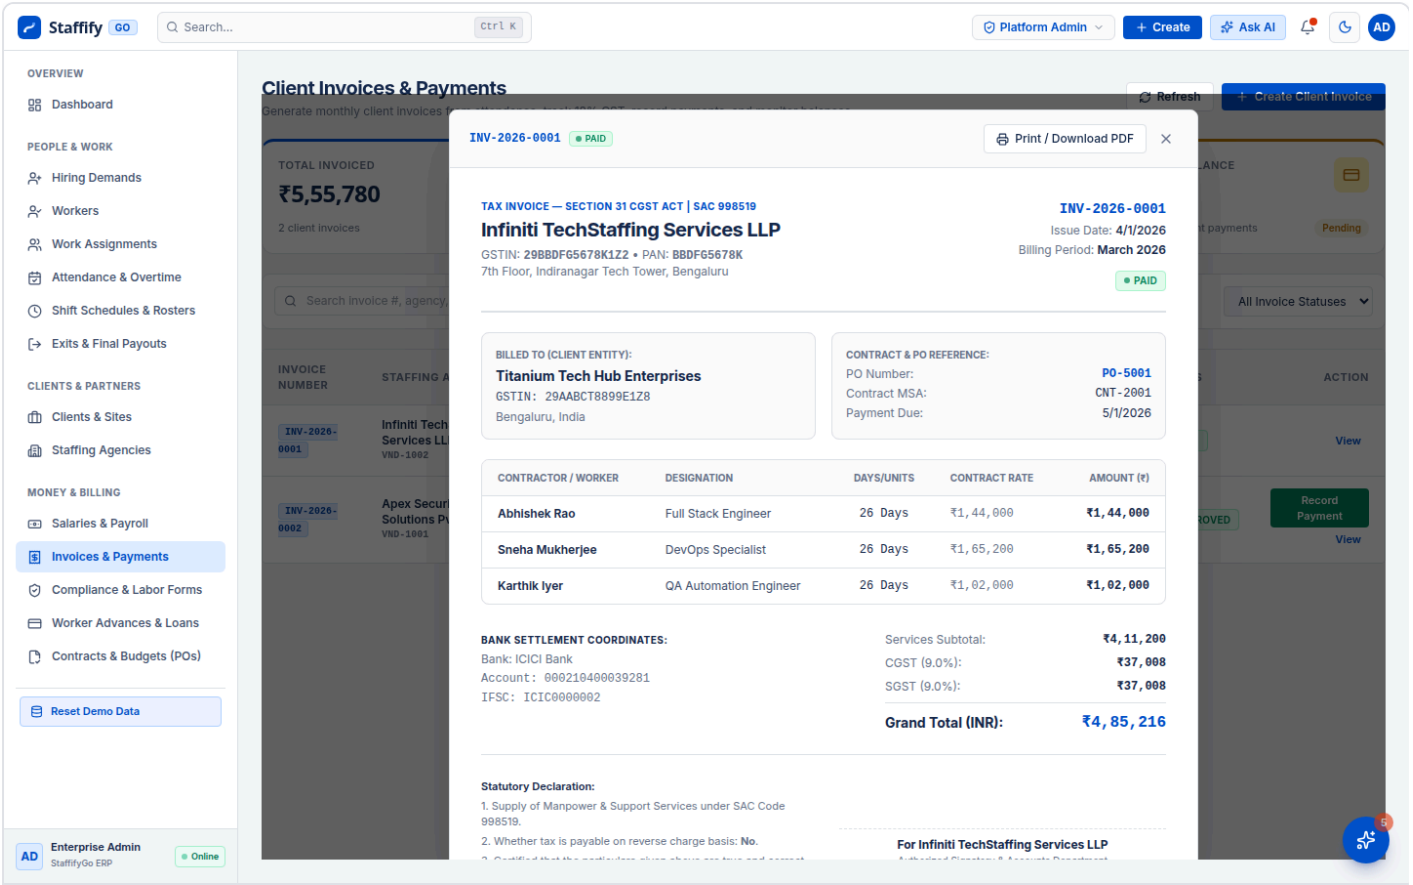

Figure 11.2 — Standard GST Tax Invoice with SAC 998519 & Bank Coordinates **Print Modal View**

Module 12 & 13: Clients & Staffing Agencies Directories

Module 12: Enterprise Clients & Delivery Sites (`/clients`)

Maintains client master records, billing entities, GSTIN numbers, and active delivery site campuses.

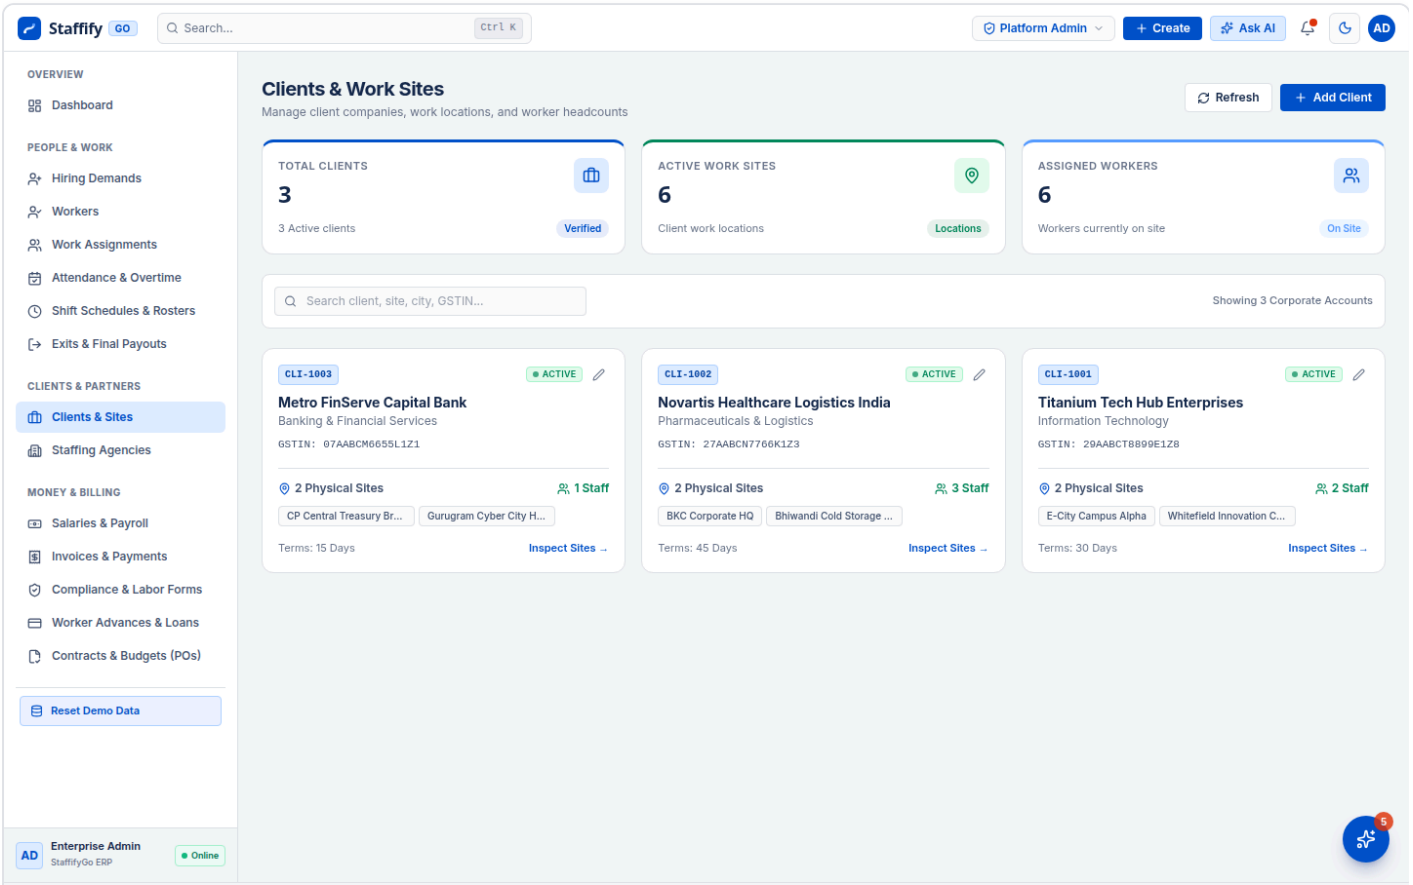

Figure 12.1 — Enterprise Client Master Directory & Active Sites **Route: /clients**

Module 13: Staffing Agencies Directory (`/vendors`)

Manages partner supplier agencies, compliance ratings, and workspace isolation for multi-agency vendor portals.

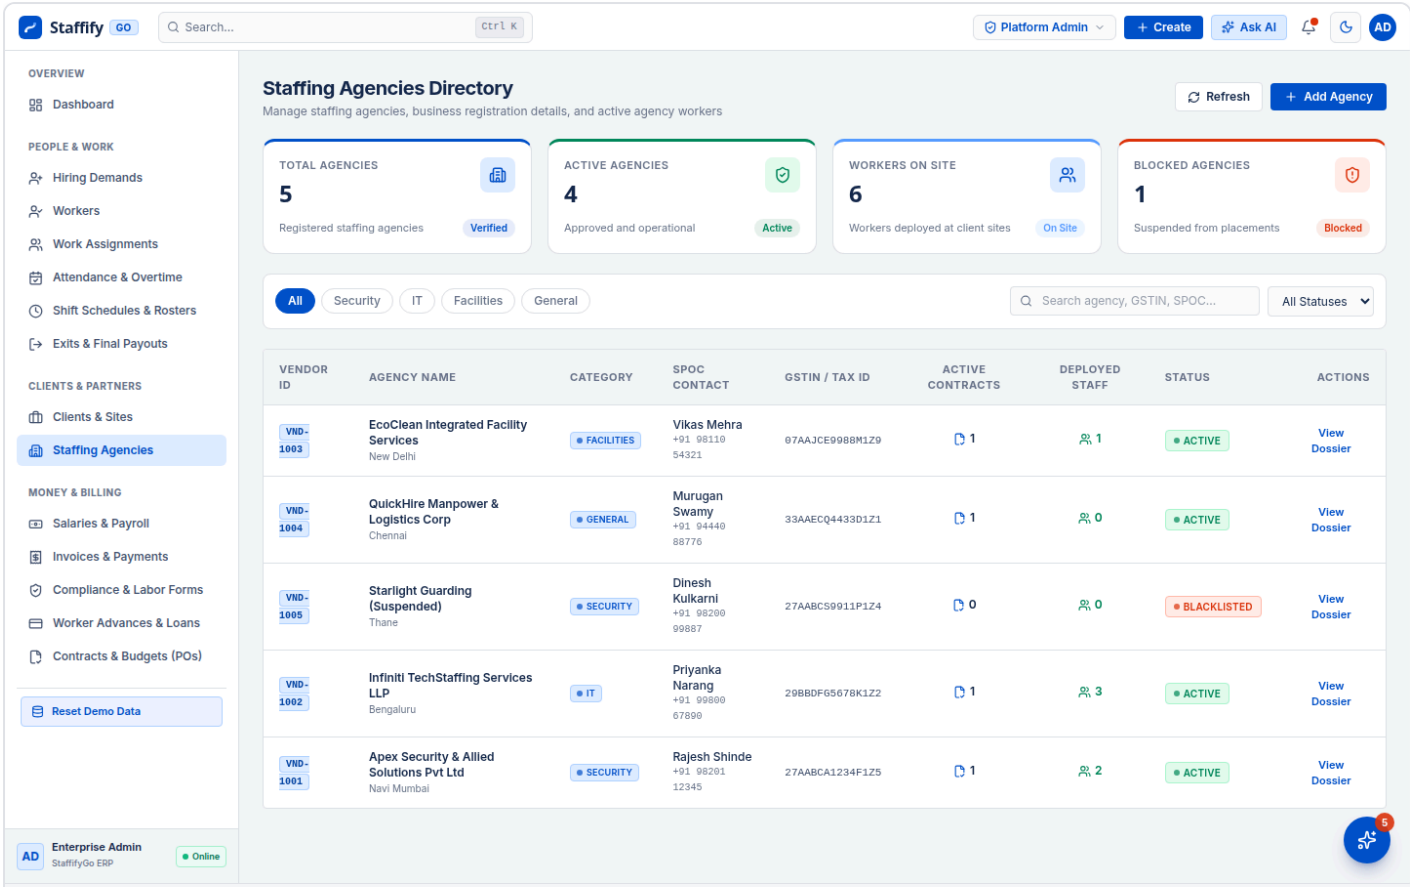

Figure 13.1 — Staffing Agencies Directory & Compliance Scores **Route: /vendors**

Module 14: Worker Exits, Clearances & Final Settlements

Route: `/settlements`

When a contractor resigns, finishes their deployment tour, or is released, this module manages orderly de-provisioning, asset returns, loan deductions, and final payout calculation.

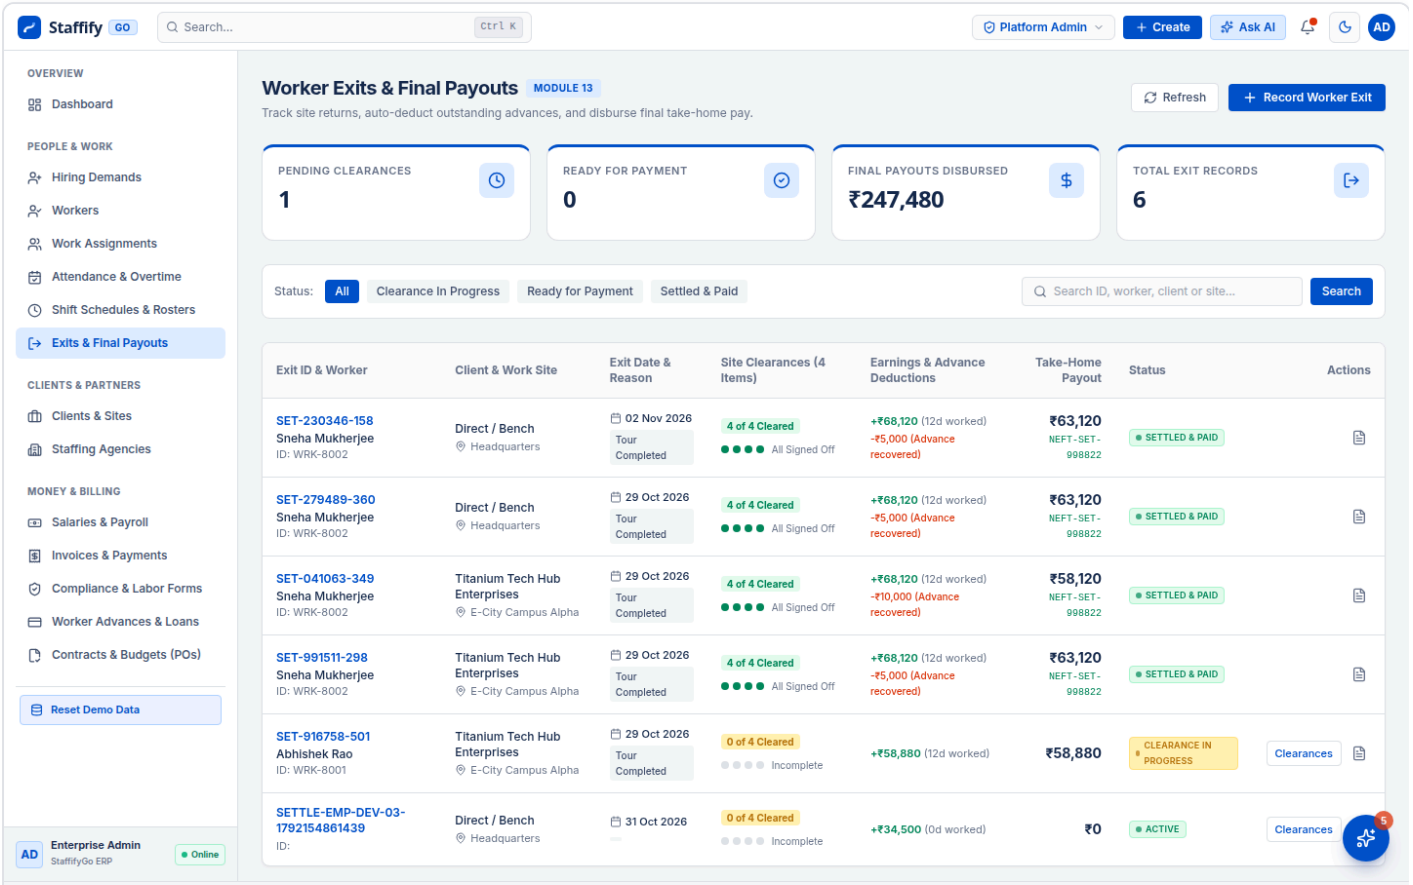

Figure 14.1 — Resignation Intake, Asset Clearances & Final Take-Home Vouchers Route: /settlements

The 4-Step Exit Settlement Procedure

1. **Resignation / Termination Intake**: Record last working day and reason for separation.
2. **Equipment & Site Clearance Checklist**:
   - [x] Return of Client Access Gate Pass & Photo ID
   - [x] Return of Uniforms & Safety PPE (Helmets, Safety Boots, High-Vis Vests)
   - [x] Return of Master Keys & Handover of Site Toolkits
   - [x] Facility Supervisor Sign-Off
3. **Automated Loan Deduction Offset**: Any outstanding advance balance is automatically subtracted from unpaid days' wages.
4. **Final Payout Disbursement**: Click *Approve Settlement* to release final funds and print the signed settlement voucher.

Module 15: Autonomous AI Copilot & Risk Watchdog

Accessible from any page via the blue floating action button (FAB) at bottom-right, the AI Copilot monitors live database operations to alert administrators to operational risks before they become legal or financial issues.

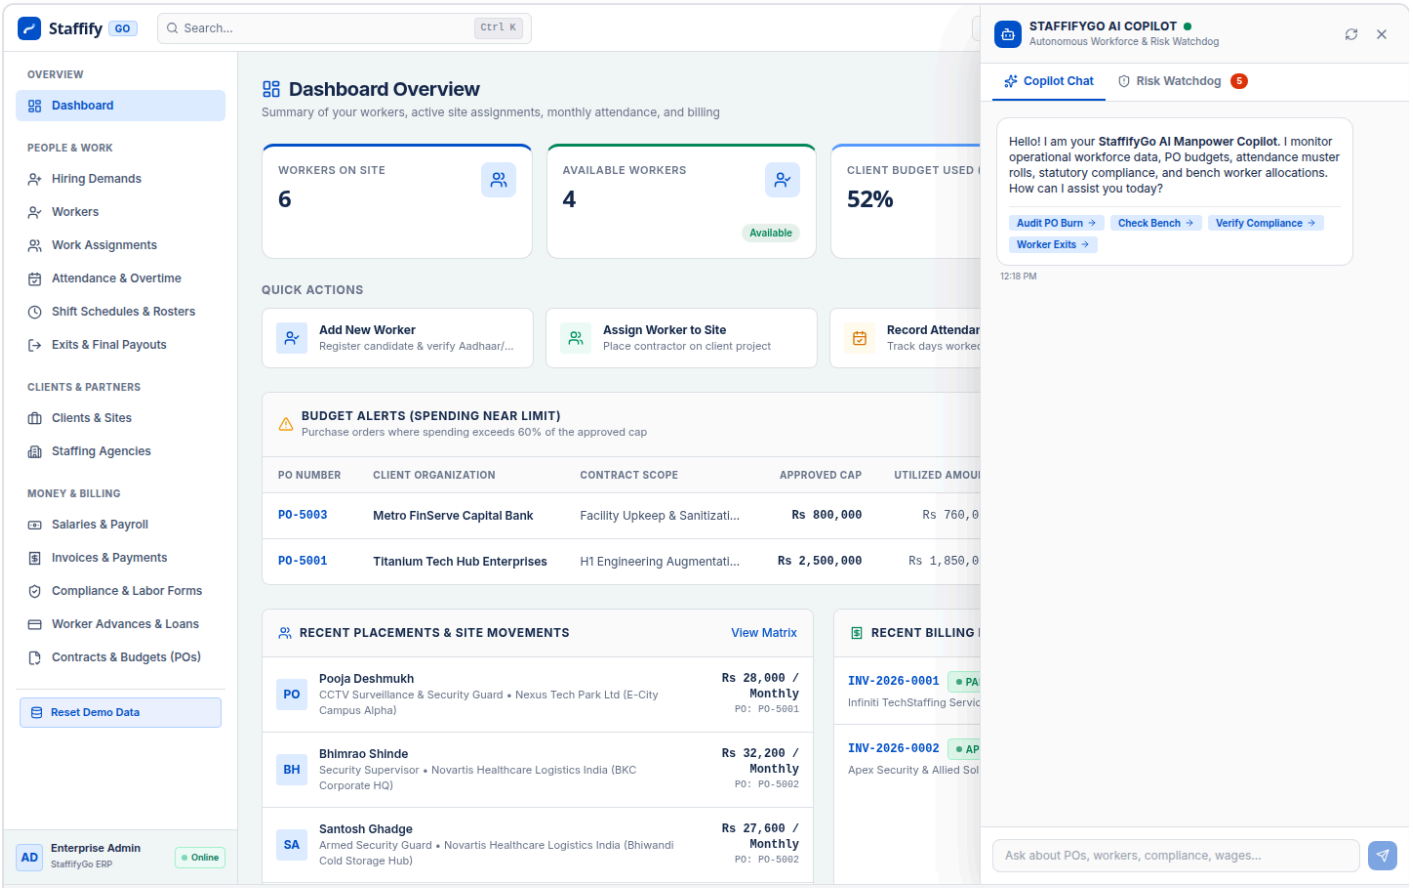

Figure 15.1 — Autonomous Operations Watchdog & Grounded Copilot Chat Universal FAB Slide-Over

Real-Time Autonomous Risk Checks

- CRITICAL RISK **PO Budget Exhaustion**: Warns when client PO burn rate exceeds 80% so purchase amendments can be secured in advance.
- WARNING **Statutory KYC Gaps**: Flags active deployed workers with missing police verification or unlinked Aadhaar records.
- WARNING **Worker Overtime Fatigue**: Detects contractors logging ≥ 15 hours of monthly overtime.
- NOTICE **High Loan Advance Balances**: Monitors unrecovered balances > Rs 20,000 awaiting monthly payroll deduction.

System Integration Matrix: How All Modules Connect

Every module in StaffifyGo feeds seamlessly into the next, ensuring complete end-to-end operational integrity:

UPSTREAM MODULE	DATA PASSED FORWARD	DOWNSTREAM MODULE	OPERATIONAL RESULT
Clients & Commercials	Agreed POs & Rate Cards	**Work Assignments**	Prevents unbilled worker deployments.
Hiring Demands	Headcount Quotas	**Workers Directory**	AI matches bench talent to open roles.
Work Assignments	Assigned Site & Rate	**Shift Rosters**	Ensures daily shift coverage.
Shift Rosters	Scheduled Timings	**Attendance Muster Roll**	Accurate punch & overtime tracking.
Attendance Muster Roll	Days Worked + OT Hours	**Salaries & Payroll**	Calculates accurate gross pay.
Worker Advances	Monthly Scheduled EMI	**Salaries & Payroll**	Automatically recovers loan balance.
Salaries & Payroll	Gross Pay & Deductions	**Statutory Compliance**	Generates Form B & Form D registers.
Attendance & POs	Billable Hours & Rates	**Client Invoices**	Generates GST tax invoice (SAC 998519).
Work Assignments	Tour End / Resignation	**Worker Exits & FnF**	Deprovisions tools & settles final pay.

StaffifyGo — Enterprise Staffing ERP Suite

Complete Modules & Operational Capabilities Manual • Designed in compliance with Indian Contract Labour (R&A) Central Rules, EPF & ESIC Statutes.
